

Nyi Tar Latt

Frontend Developer

Hi!

I am currently a Frontend developer specialize in ReactJs and NextJs. Strongly interested in Computer Science, Software Engineering and Programming. I like to learn new technologies and exploring others programming fields. I also like to collaborate with others teams and sharing opinions each other to improve our skills and expand our tech field. I am willing to learn any new technologies to improve my performance and able to adapt new environment quickly. Superhero films and music are my entertainment.
